

Let's work safe

[Chorus]

He who risk it all and fails
Can be forgiven til the very end
Listen to the words that we sing
Teamwork means everything

Oh

Don't be dangerous when you're in this place
Don't be silly, in any kind of way
Trust in me, please don't do it again
Let's work safe

[Verse 1]

This song about safety
Listen to it even though it's crazy
an unstable ladder
you think it matters
Don't hold it with one hand
You won't land how you plan
One hit in the chest don't let your loved ones guess
Pay attention, show some interest
give respect
your life's not a joke, don't be another bloke

be safe as you work, don't be a fool
don't be a fool
follow the rules

[Chorus]

He who risk it all and fails again
Can be forgiven til the very end
Listen to the words that we sing
Teamwork means everything

Oh

Don't be dangerous when you're in this place
Don't be silly, in any kind of way
Trust in me, please don't do it s
Let's work safe

[verse 2]

Don't let your actions be overtaken by anger
for you can put yourself and others in danger
Danger can lead to pain, minor or major
and you may think it won't matter
but it'll matter when you're not healthy

working in a place that you don't want to be in
following the rules of OH&S
can keep you working at your best
they've hurt themselves, there all alone
because they wanted to take over and take the load
they're are in so much pain
too scared to complain
shut off from the rest of the world
let's see who will help you now
that's why we do teamwork
so now you can wipe of
that silly smirk

[Chorus]

He who risk it all and fails
Can be forgiven til the very end
Listen to the words that we sing
Teamwork means everything

Oh

Don't be dangerous when you're in this place
Don't be silly, in any kind of way
Trust in me, please don't do it
Let's work safe
